Objective

As a recent graduate, I am seeking a role which allows me to continue learning and perfecting my skills as I provide high-quality work, and encourages me to flourish as a network technician.

Experience

- Freelance** March 2023 - June 2023
Graphic designer
Creative and detail-oriented graphic designer with experience delivering high-quality visual solutions for a variety of clients across industries. Specializes in branding, marketing materials, digital graphics, and social media content. Skilled in Adobe Creative (Photoshop, Canva) and proficient in translating client needs into compelling visuals that align with brand identity and business goals.
- Palo Alto** Jun 2023 - July 2023
Cybersecurity internship
Assisted in monitoring network security and identifying potential vulnerabilities
Supported implementation of security protocols and incident response procedures
Conducted vulnerability assessments and basic penetration testing using relevant tools
- Google** July 2024 - Aug 2024
Android development internship
Assisted in designing and developing Android applications using Java and Android Studio
Contributed to UI/UX improvements, bug fixes, and performance optimization
- AGF developer** Oct 2024 - Jun 2025
Web developer
Proficient in building and maintaining responsive, user-friendly websites using HTML, CSS, and JavaScript. Skilled in customizing and managing WordPress websites, including themes, plugins, and SEO optimization. Experienced in creating clean, structured code and ensuring cross-browser compatibility. Strong understanding of modern web design principles, UI/UX, and website performance optimization. Adept at collaborating with teams to deliver client-focused solutions within deadlines.

Education

- D.A.V Public school** 2019
Matriculation
94.8%
- Holy Mission sr. sec school** 2021
Intermediate
94%
- Galgotias University** 2025
BCA
8.11 CGPA

Skills

- Web development- HTML ,CSS , React.js
- Graphic designing- Canva , Adobe Photoshop
- Social analytics : Data visualization , Social media handling
- Tools : VS Code , Wordpress

Projects

- **Mental Health website**

Designed and developed a modern web application aimed at promoting mental health awareness. Implemented interactive features such as mood tracking and resource browsing using React. Emphasized responsive design, accessibility, and clean UI built with HTML and CSS to ensure an inclusive and engaging user experience.

- **Student database management system**

Developed a console-based application to manage student records, including adding, updating, deleting, and displaying student data. Implemented file handling for persistent storage, object-oriented programming for modular design, and basic search/sort algorithms to retrieve and organize data efficiently.

- **Online Voting System**

Developed a secure web-based voting platform using Java, JSP, Servlets, and MySQL. Implemented user authentication, session management, and real-time vote tracking. Enabled secure vote casting and result display for registered users in organizational elections.
