PROFESSIONAL SUMMARY

As a passionate Web Developer and Python Intern, I am eager to contribute my skills and creativity to your dynamic team. With a strong foundation in coding and a keen eye for detail, I am excited about the opportunity to collaborate on innovative projects that push the boundaries of technology. I am committed to continuous learning and growth, and I believe that my enthusiasm and dedication will make a positive impact on your team and its goals.

INTERNSHIPS

- React Native (3 March- 3 Sep) 6 -months

Just Call Consultancy

- Web developer (Html, CSS, JavaScript)

Spark Foundation

- Python (2022-2023) - 2-month

CodexIntern

TECHNICAL SKILLS

- **Languages:** Python, HTML, CSS, JavaScript, PHP, Machine learning, Data Science
- **Frameworks:** React native, Angular
- **Database:** SQLite, MYSQL
- **Developer Tools:** Google Cloud Platform- Azure, Visual Studio

EDUCATION

- Bachelor of Engineering – Computer Engineering (2019-2023)
Zeal College of engineering
Final Grade: 8.91 CGPA

PROJECTS

Project Title: Weather App using Angular [Angular]

- I will be creating a weather application using the Angular framework. This app will allow users to check the current weather conditions by entering a city name.
- It will provide detailed information including temperature, weather description, wind speed, and humidity. With responsive design and interactive features, the app will offer a user-friendly experience across various devices.

Project Title: Live Chat Application [PHP, JavaScript]

- This is simple web application developed in JS with PHP.
- In simple terms, live chat is a platform that allows businesses to have real-time communication with their customers or visitors.

Project Title: Cardiovascular Prediction Using Machine Learning [Python, HTML, CSS, Machine learning, Data Science]

- Developed and built a machine learning model that can accurately predict cardiovascular events (CVDs) based on patient data.
- This project demonstrates my skills in machine learning, data science, and software development. It also highlights my ability to work independently and as part of a team, and to communicate effectively with technical and non- technical audiences.
