Education

Vellore Institute of Technology, B.Tech in Computer Science and Technology Sept 2021 – Present
Specialization in AI and ML

- **Coursework:** Machine Learning, Neural Networks, Data Structures, Software Building, Database Management, Game Programming, IoT Systems, Deep Learning

Delhi Public School, Patna Higher Secondary Education 2019-2021

Percentage: 87%

Delhi Public School, Patna Secondary Education 2011-2019

Percentage: 92%

Experience

Web Dev and Database Intern, Graphic Trades Nov 2023 – Dec 2023

- Designed and developed user-friendly front-end pages, including login and dashboard interfaces, for the company's project.
- Built and managed the login page database, ensuring secure and efficient data handling.
- Managed dashboard data to ensure accurate updates and smooth functionality.

Projects

Stock Price Prediction System

- Brief description of the project: Developed a price prediction system for stocks using data of last 10 years for NIFTY companies
- Tools Used: Keras, Tensorflow, Python, Scikit-learn, pandas.

Human Activity recognition

- Developed a Human Activity Recognition involving identifying and classifying human activities based on sensor data. The project integrates Explainable AI (XAI) techniques, like the BELLA model, to provide transparency and interpretability in predictions.
- Tools Used: Keras, Seaborn, Python, Scikit-learn, Pandas.

Drowsiness Detection System

- Developed a machine learning-based system capable of A Drowsiness Detection System that uses a CNN model to analyze open-eye images and detect drowsy states
- Tools Used: Python, Scikit-learn, Pandas, Keras, Tensorflow.

Skills

Programming Languages: Python, C++, SQL, HTML, CSS, PHP

AI/ML Frameworks: TensorFlow, Keras, Scikit-learn, Seaborn.

Productivity Tools: IoT, Explainable AI (XAI), Excel, MS Word, MS Powerpoint.

Complementary Skills: Team Work, Project Management, Adaptability, Problem Solving.

Recognition Systems

Libraries: NumPy, Pillow, Matplotlib, OpenCV

Others: Machine Learning Algorithms, Saliency Map Visualization, Data Integration
