PROFILE

A Computer Science student with a strong foundation in Java, SQL, JavaScript, Data Structures, and OOP and Web Development. Quick learner with hands-on experience in building full-stack applications. Passionate about solving problems and adapting to new technologies.

PROJECT

Shri Baglamukhi - Official Puja & Anushthan Website

Technology Used : React, Node.js, express.js, MongoDB

Developed a production-ready spiritual services platform with SEO-optimized architecture, mobile-responsive frontend, and scalable backend for managing puja listings, blogs, and user inquiries. Built an integrated Admin Panel with CMS support, newsletter and contact management, and ensured clean UI/UX with optimized performance best practices.

Sakhi - Encrypted Realtime Chat Application | Web, Mobile

Technology Used : React, React Native, JavaScript, Node.js, MongoDB

Built a WhatsApp-style real-time chat application with delivery status, typing indicators, read receipts, and swipe-to-reply. Implemented secure end-to-end encryption using TweetNaCl with client-side message encryption, along with Chat Lock, public/private account search, and email OTP-based authentication.
