Professional Summary

Frontend Developer with hands-on experience building scalable web applications using React.js, TypeScript, Node.js, Express.js, and MongoDB. Skilled in developing responsive frontend systems, integrating REST APIs, and working with modern JavaScript ecosystems. Familiar with AI-assisted development workflows, cloud fundamentals, and scalable SaaS-oriented application architecture. Passionate about full stack development, automation-driven solutions, and modern product engineering.

Work Experience

Frontend Developer Intern

Dec 2025 – Apr 2026

HK digiVerse LLP, Surat, Gujarat

- Developed responsive frontend modules using React.js, TypeScript, and ES6+ JavaScript for scalable web applications.
- Integrated RESTful APIs using HTTP/JSON workflows and improved asynchronous data handling for enhanced frontend responsiveness.
- Built reusable and maintainable UI components while managing application state using Redux Toolkit.
- Collaborated with senior developers in Agile development workflows using Git/GitHub version control practices.
- Participated in frontend debugging, DOM optimization, API integration, and frontend performance optimization initiatives.

Projects

AI-Setu ERP

React.js, TypeScript, Redux Toolkit, TanStack Query

- Developed responsive ERP modules for inventory and employee management using scalable frontend architecture.
- Implemented efficient state management using Redux Toolkit and optimized server-state handling with TanStack Query.
- Integrated RESTful APIs and improved frontend responsiveness through optimized API communication and reusable UI components.
- Built scalable TypeScript-based components focused on maintainability, performance optimization, and improved user experience.

Portfolio Admin Panel

React.js, TypeScript, Redux Toolkit, TanStack Query

- Developed a responsive admin dashboard for managing profiles, blogs, and dynamic website content.
- Managed API integration, asynchronous workflows, and scalable state management using Redux Toolkit and TanStack Query.
- Built reusable frontend components with TypeScript ensuring UI consistency, maintainability, and responsive web design.
- Improved frontend performance optimization and enhanced overall application usability.

Akayra Panel

React.js, TypeScript, Redux Toolkit, TanStack Query, Ant Design

- Developed a responsive eCommerce admin panel for managing products, users, and order workflows.
- Integrated RESTful APIs and handled asynchronous data operations efficiently using modern React workflows.
- Built scalable reusable UI components using React.js, TypeScript, and Ant Design for maintainable frontend architecture.
- Enhanced application usability, frontend maintainability, and scalable component structure.

Technical Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Ant Design, Redux, Redux Toolkit, TanStack Query, DOM Manipulation, Responsive Web Applications

Backend & Database: Node.js, Express.js, MongoDB, SQL, REST APIs, API Integration, JSON, HTTP, AJAX

Tools & Platforms: Git, GitHub, VS Code, Vite, NPM, Yarn, AWS Fundamentals, Azure Fundamentals, Docker Basics, CI/CD Fundamentals

Additional Knowledge: AI-assisted Development Workflows, Prompt Engineering Basics, Scalable SaaS Applications, Frontend Performance Optimization, Agile Collaboration

Education

B.Tech in Computer Engineering

2022 – Present

RK University, Rajkot

Intermediate of Science

2021 – 2022

SHU+2 High School, Meyari Bazar, Bihar

Certifications

- AWS Cloud Foundations – AWS Academy (2025)
- React.js Tutorial – Great Learning (2024)
- Database Management System – Infosys Springboard (2024)
